

Arkin Software Technologies brings best of technical and industry leading practices to maximize returns on your Oracle Applications investments. Our approach combines meeting existing demands of the enterprise, while preparing for the future.

With a large pool of certified Oracle experts in our Oracle Center of Excellence, and aided by robust tools, methodologies, templates, and accelerators, we provide end-to-end Oracle Applications solutions including implementations, upgrades, application management services ( such as maintenance, remote DBA, archive & purge services), and a broad range of other technical services. Our approach to the implementation of Oracle Applications allows our customers agility of an integrated enterprise, including - real time data availability, transparency, global visibility, common business practices, and synchronization of enterprise functions.

As a single integrated service provider, we offer extensive industry experience and comprehensive knowledge to manage and execute complex end-to-end enterprise solutions on Oracle Applications involving diverse technologies, across multiple geographies, always on time and within budget.

## OUR SERVICES:

## ALLIED SERVICES:

### Audit of Oracle Apps

Arkin Software Technologies' independent assessment of Oracle Apps effectiveness in an organization is a very useful service. Our review not only evaluates, but provides solutions for enhanced controls and process efficiency. Our study usually highlights potential Oracle Apps functionalities usage that is unused for optimal performance and future maintenance.

### Remote DBA

Our Remote DBA services allow organizations to free up the scarce resources of the organization. Whether you need support for a smaller environment that doesn't justify a full-time DBA or simply looking for cost-effective staff augmentation for your DBA team, we have a right solution to offer.

### Archive & Purge

With several thousands of person-years of consulting experience, Arkin Software Technologies offers most effective information lifecycle management, for archiving and purging data in your Oracle Apps database, using third-party proven tools.

### Other Technical Services

Arkin Software Technologies provides a broad range of additional technical services surrounding Oracle Apps, including RICE services, data extracts, enhancements, and performance tuning.

## CENTER OF EXCELLENCE (CoE)

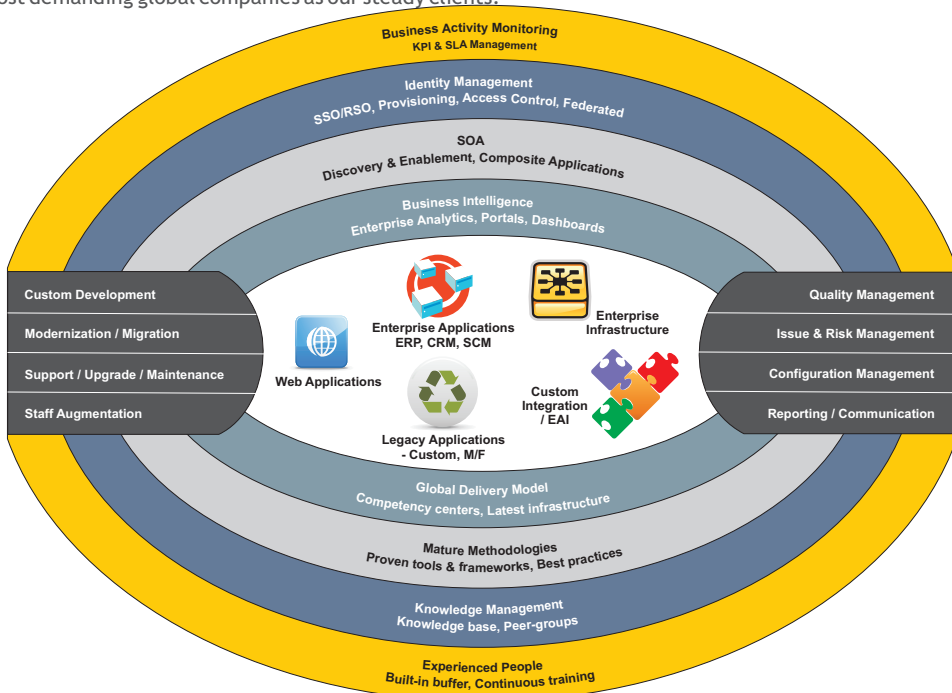

The Center of Excellence (CoE) is an expert team of consultants that facilitate, implement, provide leadership and manage enterprise-wide Oracle Applications. The role of this team is to provide strategic direction, executive leadership and guidance, specialist skills and knowledge, and operational assistance in the implementation and management of a particular discipline or activity. The core components of an Arkin Software Technologies CoE include Audit Services, Mentoring and guidance, Best Practices, Solution accelerators, standardized templates, Maturity Model, Skilled Resources, and Support.
